Два модуля стягиваются между собой межсекционными стяжками ( 33 ).  
Предварительно в соприкасающихся боковинах просверливаются сквозные отверстия диаметром 5мм, в произвольном месте, под стяжки

Заклеить технические отверстия заглушками.

## Регулировка петель

а - регулировка расстояния между дверью и корпусом  
б - регулировка положения двери по-вертикали  
в - регулировка положения ТТдвери по-горизонтали
